

North Segment: Hale Avenue Construction Advisory #2

Truck Detour for Simpson Way Access

Please be advised that **vehicles exceeding 22 feet in length** will be prohibited from turning onto northbound Simpson Way from westbound Hale Avenue starting June 5 and lasting for approximately four months. Temporary concrete barriers will be placed along the outside of westbound Hale Avenue at Simpson Way in order to allow construction crews to do work on the Interstate 15 (I-15) bridge. Due to the placement of the temporary concrete barriers, the westbound lanes on Hale Avenue will not provide a large enough turning radius to accommodate trucks. Trucks will be detoured to Industrial Avenue, so that they can access Simpson Way at Andreasen Drive. Detour signs will be in place to direct trucks.

This work is part of the ongoing North Segment I-15 Express Lanes Project. The North Segment of the I-15 Express Lanes Project costs approximately \$250 million and is expected to be completed in 2011.

How to Stay Informed
