

## State Route 76

### Melrose Drive to South Mission Road

At the beginning of a project's planning phase, Caltrans evaluates the opportunities and constraints of the project area. These opportunities and constraints help define realistic plans that respond to the unique context of each project area. The opportunities and constraints that are factored into this project's alignment alternatives include:

#### Opportunities

- 1 Proposed Wildlife or Trail Undercrossings
- 2 Trail Crossings at Highway or Street Intersections
- 3 Local Circulation Improvement at Bonsall Village
- 4 Wetland Creation
- 5 Habitat Enhancements
- 6 Water Quality Improvement
- 7 River Park

○ Occurs throughout the project area

#### Constraints

- 1 Existing Business Districts
- 2 Federal and State Endangered Species
- 3 Flood Plain Encroachment
- 4 Environmentally Sensitive Habitat
- 5 Utilities
- 6 Cultural and Historical Resources

○ Occurs throughout the project area
