

State Route 78 Nordahl Road Bridge

October 2012

Construction Advisory: Pedestrians Shifted to New Sidewalk on West Side of Nordahl Road Bridge

Pedestrians are advised that beginning the night of Sunday, October 21, 2012, the temporary pedestrian bridge on the east side of Nordahl Road Bridge will be closed and removed (shown in red below). Pedestrian access will be shifted to the newly completed sidewalk on the west side of the bridge (shown in green below). This permanent sidewalk will be the pedestrian pathway on Nordahl Road over the SR 78 while the sidewalk on the east side of the bridge is under construction. Signs will be in place to direct pedestrians to the new sidewalk.

Construction of the Nordahl Road Bridge Replacement began in late February 2012. The first phase of work reconstructed the east side of the bridge. The second phase of construction to rebuild the west side of the bridge is nearing completion.

The Nordahl Road Bridge Replacement is one of three projects in the area. Working collaboratively, the cities of San Marcos and Escondido, the San Diego Association of Governments, and Caltrans are investing \$41.1 million in three projects near the I-15/SR 78 to address the severe congestion in this project area and to prepare the SR 78 for future carpool lanes.

SR 78 Projects Schedule

Westbound SR 78 Widening Construction Schedule:
July 2011 - Spring 2012

Eastbound SR 78 Widening Construction Schedule:
January 2012 - Winter 2012/2013

Nordahl Road Bridge Replacement Construction Schedule:
February 2012 - Fall 2012
