

# Improving the Coastal Environment

## Restoring and Enhancing Lagoons

### Buena Vista Lagoon

Enhance the Buena Vista Lagoon to ensure the long-term health of about 200 acres of wetland habitat. The project will improve water quality and prevent the lagoon from filling in with silt.

**Draft EIR Expected:**  
Spring 2015

### San Elijo Lagoon

Enhance and restore the San Elijo Lagoon. The project is a cooperative effort between the County of San Diego Department of Parks and Recreation and the U.S. Army Corps of Engineers.

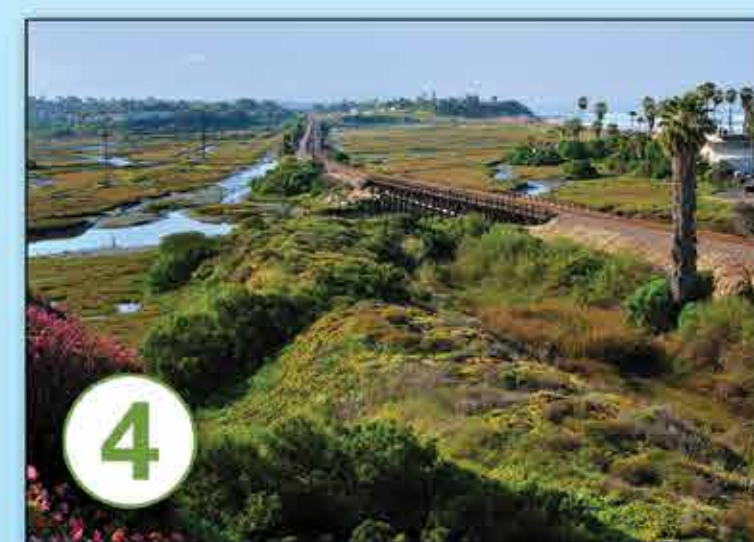

**Restoration Begins:** TBA

### San Dieguito Lagoon

Restore 120 acres of native habitat in the San Dieguito River Valley. Nearly 50 acres of coastal wetland will be created and restored. Acquired in 2009.

**Restoration Begins:** 2017 est.

### Laser Site

Preserve 4.9 acres of coastal scrub habitat adjacent to the San Elijo Lagoon in Encinitas. Acquired in 2012.

### Dean Family Trust Site

Restore approximately 22.2 acres of disturbed uplands in the San Dieguito River Valley. Mitigation will include removal of all exotic species and reestablishment of native species. Acquired in 2008.

**Restoration Began:** 2014

### a. Batiquitos Bluffs

Preserve and restore two parcels equaling 50.5 acres of native upland and wetland habitat previously slated for development. Acquired in 2015.

### b. La Costa Site

Preserve 19.75 acres of coastal sage scrub habitat. Acquired in 2009.

## Preserving Coastal Habitats

## Protecting Habitats

### Hallmark Site

Establish and restore a total of 17 acres of coastal and upland habitat adjacent to the Agua Hedionda Lagoon in Carlsbad. This mitigation will benefit the coastal California gnatcatcher and the south coast salt marsh species. Acquired in 2009.

**Restoration Begins:** 2015

### Deer Canyon Site

Restore 17.5 acres in Carmel Valley to native upland and wetland habitat and manage the parcel as open space in perpetuity. Acquired in 2011.

**Restoration Began:** 2014
