

SR 76 East Segment Project Construction Advisory #44

Temporary Road Closure June 27 – 29: Ramona Drive at SR 76

Ramona Drive at SR 76 will be closed for three days starting Monday, June 27, and will reopen to traffic on June 30. This closure will allow crews to conduct structural work and asphalt-paving on Ramona Drive.

To access Ramona Drive during this time, please use the South Mission Road detour shown on the map. Motorists are urged to budget extra time for their commute.

The work schedule is subject to change due to weather conditions. We appreciate your patience as we complete improvements.

This work is part of the SR 76 East Segment Project – the last in a series of transportation improvements in the corridor, funded in part by the [TransNet](#) regional half-cent sales tax.
