

SR 76 East Segment Project Construction Advisory #45

Traffic Switch Overnight on August 24

Overnight Wednesday (August 24), crews will work to complete a traffic switch on SR 76 in the Bonsall area between Flowerwood Lane and Old Highway 395. Crews will switch traffic early Thursday morning from the existing SR 76 alignment to the southern lanes on the newly-constructed SR 76 alignment. Starting with the Thursday morning commute, one westbound and one eastbound lane will be maintained between Flowerwood Lane and Old Highway 395 on the new SR 76.

This traffic switch will allow crews to complete work on the northern two lanes of the new SR 76 alignment.

The traffic switch schedule is subject to change. Motorists are urged to slow down, use caution in the construction area, and budget extra time for their commutes as they become accustomed to the roadway.
