

Bridge Improvements to Begin on I-805 Between SR 54 and Naples Street

Residents directly adjacent to Interstate 805 (I-805) can expect temporary and sporadic increased noise during the day and at night over the next few months while work occurs to widen bridges along the freeway median at Naples Street; Telegraph Canyon Road; Bonita Road; the I-805 and State Route (SR 54) interchange; Sweetwater Road and Euclid Avenue.

Construction activities will start in early August, and begin in phases over the next three months starting at Naples Street in the south and concluding at Euclid Avenue in the north. Bridge work is scheduled to be completed by spring 2013.

The bridge improvements are part of the first phase of the I-805 South Project, a \$1.4 billion effort to create a modern new transportation backbone for the South County. Construction on the first phase of the project began in June. Work includes building one carpool lane in each direction along an eight-mile segment of the freeway stretching from East Palomar Street in Chula Vista to State Route 94 (SR 94) in San Diego. The carpool lanes are scheduled to open in fall 2013.

Construction crews will work to minimize impacts to nearby businesses, residents and commuters. We appreciate your patience during construction.
