

What are Carpool Lanes?

Carpool lanes are a traffic management strategy to promote and encourage ridesharing. Carpool lanes help alleviate congestion and maximize the people-carrying capacity of California highways.

Who can use Carpool Lanes?

Multiple-Occupant Vehicles:

Buses

Vanpools

Automobiles with 2 or more passengers

Solo-Occupant Vehicles:

Permitted clean-air vehicles

Motorcycles

East Palomar Street DAR (Direct Access Ramp)

Direct Access Ramps connect the carpool lanes to local surface streets.

PHASE 1 PROJECT PROGRESS

Carpool Lanes

9 new access points along I-805

DONE

Sound Walls

10 sound walls constructed to reduce freeway noise
