

MID-COAST TROLLEY

# MID-COAST TROLLEY CONSTRUCTION UPDATE

JUNE 2021

## CONSTRUCTION ACTIVITIES FOR SURFACE PARKING AREA AT LA JOLLA VILLAGE SQUARE

Beginning in late June, crews will begin the third of four phases in the La Jolla Village Square surface parking area reconfiguration process. This phase of work will focus on the area west of the Nobel Drive Trolley Station parking structure. Construction activities will include asphalt demolition; new asphalt and concrete placement; and lighting, striping, and landscaping installations.

The surface parking area reconfigurations will improve access to the Nobel Drive Trolley Station parking structure as well as overall traffic flow. While construction is underway, the parking structure will be available for use and patrons can enter from the east side of the structure. The reconfigurations are anticipated to be completed by fall 2021.

### What to Expect

- Typical work hours will be Mondays through Fridays, from 7 a.m. to 5 p.m.; additionally, some night and weekend work may be required
- Construction activities will take place inside of the fenced work area
- Work will be phased and completed in fenced-off sections of the parking area; notice will be provided before each phase begins
- Access to the mall entrance, the underground parking garage, and the Nobel Drive Trolley Station parking structure will be maintained at all times
- Businesses will remain open during construction; access will be maintained at all times

**Construction schedules are subject to change due to weather, equipment, and other issues.**

## Update on Construction During COVID-19 Pandemic

The government has deemed public works construction activities to be essential, so SANDAG is working to keep active construction projects moving while prioritizing the health and safety of its partners, contractors, and communities. For additional information, please visit [sandag.org/COVID-19](https://sandag.org/COVID-19).

### About the Project

The Mid-Coast extension of the UC San Diego Blue Line Trolley will increase the regional Trolley system by 11 miles—from Downtown San Diego to the University community—and will serve major activity centers such as Mission Bay, the VA Medical Center, UC San Diego, and University Towne Centre. Nine new stations will be constructed. Major construction work began in 2016, with service anticipated to begin in late 2021.
