

MID-COAST TROLLEY

MID-COAST TROLLEY CONSTRUCTION UPDATE

SUMMER 2020

TEMPORARY CLOSURE OF SCRIPPS HEALTH DRIVEWAY AT VOIGT DRIVE

Beginning July 6, all access to and from Scripps Health facilities via Voigt Drive will be closed as crews continue efforts to improve Voigt Drive. Both inbound and outbound access will be closed for approximately one month as crews rebuild the driveway and adjacent roadway. Once rebuilt, crews will reopen the inbound access of the driveway to Scripps Health facilities from Voigt Drive. Inbound access will be available from the west only.

This is ongoing work for the Voigt Drive Improvements project, which began in December 2019. The project requires a full closure of Voigt Drive, which went into effect in April 2020 and is expected to continue through fall 2021.

What to Expect

- Beginning July 6, access to and from Scripps Health facilities via Voigt Drive will be closed to inbound and outbound traffic
- A full closure of Voigt Drive between parking lot P701 and Campus Point Drive will continue to be in place
- Typical work hours will be Monday through Friday from 7 a.m. to 5 p.m., though occasional nighttime and weekend work may be required
- The full closure will be in effect for vehicles, pedestrians, and all forms of micromobility transportation
- Traffic control measures will be in place, including temporary traffic signals, temporary wayfinding and detour signage, and roadway and sidewalk reconfigurations
- During construction, MTS Bus Routes 201 and 202 will not stop along Voigt Drive but will service a temporary stop on Athena Circle

About the Voigt Drive Improvements Project

A joint effort of SANDAG, Caltrans, and UC San Diego, the Voigt Drive Improvements project will realign Voigt Drive and Campus Point Drive to help accommodate existing and future traffic demand in the area. To complete the realignments, crews will widen Voigt Drive, make improvements to the Preuss School parking lot, and conduct utility improvements.

Upon completion, the project will provide direct access to and from the future Voigt Drive Trolley station, improving transit access to the medical facilities in the area.

Update on Construction During COVID-19 Pandemic

The government has deemed public works construction activities to be essential, so SANDAG is working to keep active construction projects moving while prioritizing the health and safety of its partners, contractors, and communities. For additional information, please visit sandag.org/COVID-19.

About the Mid-Coast Trolley Project

The Mid-Coast Trolley project will extend UC San Diego Blue Line Trolley service from the Santa Fe Depot in Downtown San Diego to the University community, serving major activity centers such as Mission Bay, the VA Medical Center, UC San Diego, and University Towne Centre. Nine new stations will be constructed. Major construction work began in 2016, with service anticipated to begin in late 2021.
