Construction Advisory

Intermittent Overnight Closures Tonight at I-5/Genesee Avenue Interchange

Crews to Pour Concrete to Form New Bridge Deck

Closures

Overnight tonight through noon on Saturday, there will be intermittent lane closures on Interstate 5 (I-5) to allow crews to pour the concrete deck of the new bridge.

During this same time, there also will be reduced lanes on Genesee Avenue, as well as a closure of the southbound off-ramp at the I-5/Genesee Avenue interchange.

Crews placed utility lines through the new bridge in preparation for the bridge deck concrete pour.

Access for emergency vehicles will be maintained. Motorists are advised to avoid the area if possible and slow down during construction.

We appreciate your patience as we work to improve the interchange.

Additional Closures

Throughout January and February, construction will require intermittent overnight lane closures on I-5, Genesee Avenue, and the on- and off-ramps at the interchange. View a detailed list of planned closures and associated detours here or visit KeepSanDiegoMoving.com/Genesee.

Please note construction schedules are subject to change.

About the Project

The $105 million project will replace the existing six-lane Genesee Avenue overcrossing with a ten-lane structure that will include additional vehicle lanes, new bicycle lanes and sidewalks, and better accommodate current and future traffic demands in the San Diego region.

The I-5/Genesee Avenue Interchange Project is expected to be completed in 2017.
