

# I-5/Genesee Avenue Interchange Project

FEB  
2016

## Construction Advisory

### Overnight Closures of I-5 at Genesee Avenue This Week

#### Closures

Motorists should be advised that intermittent overnight closures of all lanes on Interstate 5 (I-5) at Genesee Avenue will occur this week, Monday - Friday, February 22 - 26, between 11 p.m. and 6 a.m. Please note, only one direction of the freeway will be closed at a time. These closures will allow the construction crews to remove falsework, which are temporary wood forms used to support the foundation of the new I-5/Genesee Avenue Bridge.

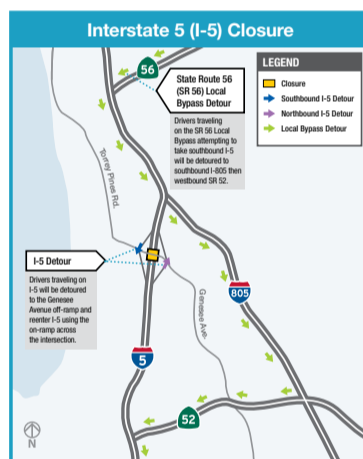

Please view our [online list](#) for details on the direction and timeframe of the closures.

Motorists will be detoured around the freeway closures. Access for emergency vehicles will be maintained. Construction schedules are subject to change.

#### Detours

Motorists will be detoured at the interchange to the Genesee Avenue off-ramp and reenter using the on-ramp across the intersection. Please view the graphic for details.

Motorists traveling south on I-5 who wish to use the State Route 56 local bypass during the southbound I-5 closures will be detoured to southbound Interstate 805 then westbound State Route 52. Signs will be placed to alert motorists in advance.

#### Additional Closures

Over the next two months, construction will require intermittent overnight lane closures on I-5, Genesee Avenue, and the on- and off-ramps at the interchange. View a detailed list of planned closures and associated detours [here](#) or visit [KeepSanDiegoMoving.com/Genesee](http://KeepSanDiegoMoving.com/Genesee).

Please note construction schedules are subject to change.

#### About the Project

The \$105 million project will replace the existing six-lane Genesee Avenue overcrossing with a ten-lane structure that will include additional vehicle lanes, new bicycle lanes and sidewalks, and better accommodate current and future traffic demands in the San Diego region. Check out the [project webcam](#).

The I-5/Genesee Avenue Interchange Project is expected to be completed in 2017.
