

» I-5/Genesee Avenue Interchange Project

JUNE 2016

Construction Advisory Reminder

Motorists Urged to Steer Clear of I-5/Genesee Avenue Interchange Due to Construction

From June 17 – 26, motorists can expect traffic delays at the Interstate 5/Genesee Avenue interchange. Crews will build new freeway on- and off-ramps and move traffic onto the newly constructed north side bridge. During this time, motorists can expect reduced lanes during the day and intermittent lane closures at night on Genesee Avenue between Science Center Drive and Scripps Hospital. During the weekend of June 24 – 26, there also will be intermittent daytime and nighttime closures of the on- and off-ramps to I-5. Once the traffic has been switched, crews will begin demolition of the old Genesee Avenue Bridge and construct the second half of the new structure.

Detours will be in place, but motorists and people on bikes are encouraged to avoid the area if possible during this work. Motorists are advised to use La Jolla Village Drive as an alternative route. To view the schedule of the planned closures and associated detours, visit KeepSanDiegoMoving.com/Genesee. Access real-time traffic info through any of these resources: [511SD](#), [Caltrans QuickMap](#), [WAZE](#), [Google Maps](#), or [Shift San Diego](#). Please note: construction schedules are subject to change as closures are weather permitting. We appreciate your patience as we work to improve the interchange.

About the Project

The \$105 million project will replace the existing six-lane Genesee Avenue overpass with a ten-lane structure that will include additional vehicle lanes, new bike lanes and sidewalks, and better accommodate current and future traffic demands in the San Diego region. The I-5/Genesee Avenue Interchange Project is expected to be completed in 2017.

Be Work Zone Alert!

Keep San Diego Moving Forward

In November, voters countywide may be asked whether they support increasing the region's local sales tax by one-half cent. The "Keep San Diego Moving Forward" measure is designed to provide a dedicated source of local revenue that can't be taken by Sacramento to invest in our region's transportation future. A mix of projects and programs to be funded was prepared based on input from the public, resulting in a balanced plan that includes a variety of transportation system improvements.

Visit sandag.org/priorities to learn what projects are included, and view our [interactive map](#) to see where transit and highway projects could be completed near you. View informational flier: [English](#) / [Español](#)
